

# Risk Management Policy

## Policy Objectives

The objective of this Risk Management Policy is to state the Town of Cottesloe's ('Town's') intention to identify potential risks before they occur, so that impacts can be minimised or opportunities realised; ensuring that the Town achieves its strategic and corporate objectives efficiently, effectively and within good corporate governance principles.

## Policy Statement

It is the Town's Policy to achieve best practice aligned with AS/NZS ISO 31000:2018 Risk Management – Guidelines, in the management of all risks that may affect the Town meeting its objectives.

Risk management functions will be resourced appropriately to match the size and scale of the Town's operations, will form part of Strategic, Operational, and Project responsibilities, and be incorporated within the Town's Integrated Planning and Reporting Framework.

This policy applies to all Council Members, Employees and Contractors involved in any Town operations.

## Policy Details

Council is committed to ensuring that Risk Management:

- Optimises the achievement of the Town's values, strategies, goals and objectives.
- Aligns with and assists the implementation of Town Policies.
- Provides transparent and formal oversight of the risk and control environment, enabling effective decision-making.
- Reflects risk versus return considerations within the Town's risk appetite.
- Embeds appropriate and effective controls to mitigate risk.
- Achieves effective corporate governance and adherence to relevant statutory, regulatory and compliance obligations.
- Enhances organisational resilience.
- Identifies and provides for the continuity of critical operations.

## Key Policy Definitions

Risk: The effect of uncertainty on objectives.

Note 1: An effect is a deviation from the expected – positive or negative.

Note 2: Objectives can have different aspects (such as financial, health and safety and environmental goals) and can apply at different levels (such as strategic, organisation-wide, project, product or process).

Risk Management: Coordinated activities to direct and control an organisation with regard to risk.

Risk Management Process: Systematic application of management policies, procedures and practices to the activities of communicating, consulting, establishing the context, and identifying, analysing, evaluating, treating, monitoring and reviewing risk.

### **Roles & Responsibilities**

The CEO is responsible for:

- Implementation of this Policy.
- Measurement and reporting on the performance of Risk Management.
- Review and improvement of this Policy and the Town's Risk Management Framework triennially, or in response to a material event or change in circumstances.

The Town's Risk Management Framework outlines in detail all roles and responsibilities associated with managing risks within the Town.

### **Risk Assessment and Acceptance Procedures**

The Town has quantified its broad risk appetite through the Town's 'Risk Assessment and Acceptance Criteria' (below). The Criteria are included within the Risk Management Framework and as a component of this Policy.

All organisational risks are to be assessed according to the Town's Risk Assessment and Acceptance Criteria to allow consistency and informed decision-making.

Whilst these risk criteria are necessarily broad in their guidance, they offer insight to staff about risk areas or activities where Council has set reasonable boundaries.

For operational requirements such as Projects, Events, Work Health and Safety, or in rare instances in which the Town's Risk Assessment and Acceptance Criteria are unclear in determining a level of risk, alternative risk assessment criteria may be utilised, however these cannot exceed the organisation's risk appetite, and approval for such use must first be obtained from the Director Corporate and Community Services.

### **Monitor & Review**

The Town will implement and integrate a monitor and review process to report on the achievement of Risk Management objectives, the management of individual risks and the ongoing identification of issues and trends.

This Policy will be kept under review by the Town's Management Team. It will be formally reviewed triennially and forms part of the Town's Compliance Calendar overseen by the Audit Committee.
