1	Something that gets done is better than something debated for the next 5 years.	12/19/2021 12:00 PM
2	Love the bike skills and pump track ideas. My son would love both	12/17/2021 12:52 PM
3	Basketball hoop too please. And climbing equipment.	12/17/2021 11:32 AM
4	Keep the purple dinosaur!	12/17/2021 11:28 AM
5	good to see some council funds finally invested in public play spaces	12/17/2021 10:32 AM
6	Keep the bush feel, include water fountain, bike path on the reserve would be good too.	12/15/2021 4:26 PM
7	Make a place for all ages for being active and playing. Join all the area with a crushed limestone meandering path from Eric Street to Forrest Street Carpark. Create places of interest all along. Use a planted natives barrier like the one near Albion Street.	12/13/2021 5:06 PM
8	See above. As per question 11.	12/12/2021 1:23 PM
9	I would prefer just the 2 existing play spaces be upgraded and the rest left as 'natural' bushland. A complete redevelopment would be over-kill, in my view.	12/12/2021 8:54 AM
10	Anything would be an improvement on a caged sand patch with on purple dinosaur.	12/11/2021 10:10 AM
11	Very excited to see this space come to life	12/10/2021 1:34 PM
12	The current playground space is not often used by children. I think this is because the area is a bit barren and so it doesn't really entice people to go there.	12/9/2021 10:32 AM
13	I think it's appalling that this area has been so neglected for so long and I'm glad something is finally being done. I would definitely like to see activities and play areas for bigger kids. Something like a big natural treehouse with slides and climbing frames would be great. A pump track would also be brilliant. Also exercise facilities and water fountain.	12/8/2021 10:29 AM
14	My grandchildren have so missed the equipment at the Purple Turtle playground. Just a replacement of what was there could have been done years ago. Hope the consultation doesn't add more years before facilities taken away are replaced.	12/7/2021 6:11 PM
15	No concrete paths, no big structures, no meeting areas for youth at night. The space should serve young families living in the area, local dog walkers, locals wanting a quiet space in amongst native plants please. No bike track as parents will want to drive their children to this, and we already have huge congestion problems in this area due to station car park overflows Mon - Sat.	12/6/2021 4:01 PM
16	Thankyou for the opportunity	12/6/2021 1:46 PM
17	We confirm that the layout is overkill and a waste of money that can be better used elsewhere. Please, just upgrade the existing playground areas and leave the natural habitat or enhance it will dedicated walk paths (not concrete), as per above.	12/6/2021 11:13 AM
18	Please avoid real estate agency advertising on public material in the park, let's keep this aesthetically pleasing and non commercial for our community to enjoy	12/5/2021 8:20 PM
19	Enclosed spaces make the area look locked up. It's very hard to have a space that caters for everyone. How to ensure child safety near road and rail is difficult without fences but the fences make it unappealing to use.	12/4/2021 2:36 PM
20	To screen with naturally hedging / screening type medium shrubs where the carpark is being extended from the existing carpark near the train station at Forrest St but will be extended near the Vera Street end. Better for the neighbouring residential area so the parked cars aren't a feature / visible. I think over the years this part of Cottesloe near the Township is being more and more challenged with increasing car traffic so this impact needs to be lessened where possible and screening this area with vegetation would be showing consideration for those ratepayers.	12/4/2021 10:57 AM
21	Note the new playground on the corner of Marine Pde and Curtin Ave is never used because there's no playground equipment and it's right next to a busy road. You need playground	12/4/2021 7:47 AM

24	Thank you	12/2/2021 10:40 PM
25	A playground for dog would be fun.	12/2/2021 7:15 PM
26	The new extra large slide / nature play park in South City Beach sports oval area (challenger pde) works really well, as does the Claremont pump track. Connectivity to the bike path on other side ideal	12/2/2021 5:05 PM
27	No just consider older children not just going kids.	12/2/2021 4:47 PM
28	Parking provision along Railway street	12/2/2021 3:54 PM
29	My son (age 2) loves the purple dinosaur and playing with the toys in the sand. But definitely room for improvement!	12/2/2021 3:31 PM
30	I do not think this space is suitable for older childrens play area as the echo from basket balls, skate boards and bikes thumping down would only add to the general noise of trains, cars which is already at a premium noise rating. I do not want to have to apply to the council for a full brick fence to cut out the noise from skate boards and I will vigorously fight this if it is agreed to install one.	12/2/2021 2:32 PM
31	The length of the training is home to a large number of birds, I think protecting their habitat should be top priority when considering any works.	12/2/2021 10:03 AM
32	Please hurry up. The dinosaur playground has been neglected for five years!	12/1/2021 7:02 AM
33	Thank you for progressing this	11/30/2021 1:43 PM
34	Please consult high level designers and don't make it ugly	11/30/2021 8:31 AM
35	please ensure there are shade sales	11/29/2021 9:29 PM
36	Please keep trees and shade and no plastic playground equipment please	11/29/2021 8:44 PM
37	Please build it.	11/29/2021 6:37 PM
