Proposed Meeting Date: 20 October 2014
Author Disclosure of Interest: Nil

SUMMARY

This report presents a proposed Local Planning Policy regarding parking matters under Local Planning Scheme No. 3 (LPS3) to supplement the Scheme provisions.

The Scheme contains some particular parking provisions that involve discretion and require a policy to become operative, which the Policy addresses. Several other provisions entail discretion regarding parking, but are self-contained with their prescriptions guiding determination.

The proposed Policy is attached and the recommendation is that it be advertised.

BACKGROUND

LPS3 in Part 2 provides for policy as a vehicle for dealing with discretion and detail in aspects of development proposals. The Scheme policy-making procedure accords Local Planning Policy status under the Scheme with a degree of force and effect:

2.3. Relationship of Local Planning Policies to Scheme

- 2.3.1. If a provision of a Local Planning Policy is inconsistent with the Scheme, the Scheme prevails.*
- 2.3.3. A Local Planning Policy is not part of the Scheme and does not bind the local government in respect of any application for planning approval but the local government is to have due regard to the provisions of the Policy and the objectives which the Policy is designed to achieve before making its determination.*

Note: Local Planning Policies are guidelines used to assist the local government in making decisions under the Scheme. Although Local Planning Policies are not part of the Scheme they must be consistent with, and cannot vary, the intent of the Scheme provisions, including the Residential Design Codes. In considering an application for planning approval, the local government must have due regard to relevant Local Planning Policies as required under clause 10.2.

REQUIREMENTS FOR POLICY

LPS3 in clause 5.8.3 specifies two particular discretions to be guided by policy:

Second paragraph – parking credit:

In the Town Centre, Hotel, Foreshore Centre, Restricted Foreshore Centre and Development zones, when considering redevelopment or new development or change of use applications, the local government may credit towards the amount of parking required to be provided as specified in Table 3, the parking deficiency that an existing tourism use may have when calculated against those provisions applicable to the subject site and its uses under this Scheme, having regard to the size and shape of the land, the number and availability of parking spaces in the vicinity, the likelihood of traffic congestion, and the opportunity to improve the appearance, amenity, function and accessibility of the locality provided that the decision to credit such a deficiency is made in the context of a Local Planning Policy adopted pursuant to Part 2 of this Scheme. For the purposes of this clause, tourism use means the "Hotel", "Motel", "Short-stay Accommodation", "Serviced Apartment", "Small Bar" and "Restaurant" uses.

The concept of a parking credit is that if an existing approved tourism use/development has managed with its present parking supply, the difference between what it would have to provide now under LPS3 and what the proposal for the site is required to provide under LPS3 may be waived as an incentive. Although the above provision indicates crediting the full deficiency, the assessment criteria connote that a partial credit may be determined. This credit capacity is confined to the nominated uses. The provision may apply to successive proposals for a site during the life of LPS3.

5.8.3(c) – cash in lieu:

Lead-in paragraph: *In the Town Centre, Foreshore Centre, Restricted Foreshore Centre, Hotel, Development and Residential Office zones, the local government may approve development without the required number of parking spaces being provided on the land, subject to the applicant making arrangements satisfactory to the local government enabling the local government to provide public off-street parking in the vicinity, equivalent to the deficiency in parking spaces; and in this regard the local government may accept cash in lieu of parking spaces on the land, subject to the following —*

Operative paragraph: *the cash in lieu payment shall only be accepted by the local government after a Local Planning Policy has been adopted under Part 2 of this Scheme which identifies the planned infrastructure including the land upon which it is planned to be located and the planned timing of expenditure of payments made under this clause;*

This means that there has to be a policy framework in place to facilitate consideration of accepting cash in lieu for allocation to planned parking provision over time.

Further to the above two matters, LPS3 in Schedule 13, Variations to site and development standards and requirements, provides as follows:

Parking reductions:

Parking (clause 5.8, Table 3 Vehicle Parking Requirements):

Subject to the following, the parking requirements set out in Table 3 may be varied, so as to reduce the number of parking spaces required in respect of a particular development by up to 20% of the number of parking spaces that would otherwise be required by the application of the provisions of Table 3, subject to the provision of a traffic impact assessment, to the satisfaction of the Council, addressing the matters referred to in clause 5.5.4(c).

Clause 5.5.4(c) reads:

...if the local government is satisfied that the non-compliance will not have an adverse effect upon the occupiers or users of the development, the inhabitants of the locality or the likely future development of the locality.

To sum up, the Policy responds to the details of these three aspects outlined above where guidance is required in the exercise of discretion.

POLICY PROPOSAL

The proposed Policy was prepared in accordance with the framework of the Scheme parking provisions, including consideration of previous studies including research and workshops with Council towards a parking strategy.

The Policy document explains its role and purpose then sets out the relevant policy parameters in relation to the Scheme provisions. These allow for guided flexibility and discretionary decision-making and are necessary to enable development proposals to be formulated and determined.

Parking credit:

Parking credits apply to the Town Centre, Hotel, Foreshore Centre, Restricted Foreshore Centre and Development zones only. The Scheme specifies parameters for Council exercising discretion to grant parking credits, as set out in the table below. The feasibility of each parameter varies according to the nature of the proposed development, the circumstances of the zone and locality, parking supply, amount of traffic and related factors.

ZONES:	Town Centre	Hotel	Foreshore Centre	Restricted Foreshore Centre	Development
CRITERIA:					
Redevelopment or new development.	Up to 100% credit depending on nature of redevelopment.	Up to 50% credit depending on nature of redevelopment.	Up to 50% credit depending on nature of redevelopment.	Up to 75% credit depending on nature of redevelopment.	Up to 50% credit depending on nature of redevelopment.
Change of use.	Up to 100% credit depending on nature of change of use.	Up to 50% credit depending on nature of change of use.	Up to 50% credit depending on nature of change of use.	Up to 75% credit depending on nature of change of use.	Up to 50% credit depending on nature of change of use.
Parking deficiency of existing tourism use.	Determined from Town's records and applicant's evidence.				
	Mainly smaller,	Single large lot,	Range of	Consistent with	OBH street

Size and shape of the land.	narrower-frontage lots, with some larger lots.	with heritage hotel and rear alfresco addition.	smaller to larger lots, mostly corner sites; with numerous strata titles.	residential lots in each street.	block comprises multiple lots and mixed ownership. Other Development Zones comprise very large, mainly single parcels.
Number and availability of parking spaces in vicinity.	Good supply of public parking.			Good supply of public parking, but residential street parking restrictions.	OBH street block is near good supply of public parking. Other Development Zones are near varied limited supplies, with some potential for increases.
Likelihood of traffic congestion.	High traffic locality.				OBH street block and Railway lands are in high traffic localities. Former depot site will be residential traffic only. Major development on Gibney Street sites would generate considerable traffic.
Opportunity to improve appearance, amenity, function and accessibility of locality.	Depends upon nature of proposal, design of any development and Scheme requirements.				

Note: For the purposes of this table, tourism use means the "Hotel", "Motel", "Short-stay Accommodation", "Serviced Apartment", "Small Bar" and "Restaurant" uses.

Cash in lieu:

Cash in lieu applies to the Town Centre, Foreshore Centre, Restricted Foreshore Centre, Hotel, Development and Residential Office zones only. The Scheme specifies parameters for Council exercising discretion to grant cash in lieu, as set out in the table below. The feasibility of each parameter varies according to the nature of the proposed development, the circumstances of the zone and locality, land availability and related factors.

ZONES:	Town Centre	Foreshore Centre	Restricted Foreshore Centre	Hotel	Development	Residential Office
CRITERIA:						
Public off-street parking in vicinity.	Good supply of public parking.	Good supply of public parking.	Good supply of public parking.	Good supply of public parking.	Good supply of public parking for Development Zone 'A' (OBH site).	Good supply of public parking.
Deficiency in parking spaces.	Maximum 25% as determined by Council.	Maximum 25% as determined by Council.	Maximum 20% as determined by Council.	Maximum 20% as determined by Council.	Maximum 25% as determined by Council.	Maximum 20% as determined by Council.
Planned infrastructure including land.	New surface or multi-level car parks, including basements, undercrofts or decks.	New car parks integral to buildings/sites, including basements, undercrofts or decks.	New car parks integral to buildings/sites, including basements, undercrofts or decks.	New car parks integral to building/sites, including basements or undercrofts.	New surface or multi-level car parks, including basements, undercrofts or decks.	New car parks integral to buildings/sites, including basements or undercrofts.
Planned timing of expenditure	Upon development of Council or private land.	Upon development of private land.	Upon development of private land.	Upon any relevant development of the OBH site.	Upon development of private, Government or institutional land.	Upon development of private land.
Public parking stations on Town-controlled land.	Council car park corner Station and Railway Streets and eastern car park on Station St – decked parking. Surface or decked parking along Railway Street near train station.	Possible decked parking at rear of development along Marine Parade.	Possible surface car park, subject to traffic control and residential amenity.	Not applicable to Cottesloe Beach Hotel site.	Surface or decked parking integral to development of these sites, subject to good access and quality design.	Surface or decked parking, subject to good access, quality design and mixed-use amenity.
Public transport infrastructure on Town-controlled land.	Provision for local bus, taxi or shared bike facilities.	Provision for local bus, taxi or shared bike facilities.	Provision for local bus, taxi or shared bike facilities, subject to residential amenity.	Provision for local bus, taxi or shared bike facilities.	Provision for local bus, taxi or shared bike facilities.	Provision for local bus, taxi or shared bike facilities.
Land in lieu of cash in lieu, identified for public parking.	Council will consider land capable of parking development.	Council will consider land capable of parking development, which	Council will consider land capable of parking development, which	Not applicable to Cottesloe Beach Hotel site.	Council will consider land capable of parking development, which	Council will consider land capable of parking development.

		does not front Marine Parade.	does not front Marine Parade, subject to residential amenity.		is well-located and, accessible, subject to residential amenity.	
--	--	-------------------------------	---	--	--	--

Note: Maximum % of parking bays Council may permit as cash in lieu relates to:

- The parking requirement generated by nature of use and magnitude of development.
- The demands for parking from the development and in the locality.
- The physical scale and form of development in relation to the site and surrounds
- The affects on the amenity of the development and surrounds.

Parking reductions:

This is informed by clause 9.2(c) regarding application requirements, which provides for:

any specialist studies that the local government may require the applicant to undertake in support of the application, such as traffic, heritage, environmental, engineering or urban design studies;

As well as by clause 10.2.2 matters to be had regard to, which includes:

whether the proposed means of access to and egress from the site are adequate and whether adequate provision has been made for the loading, unloading, manoeuvring and parking of vehicles; and

the amount of traffic likely to be generated by the proposal, particularly in relation to the capacity of the road system in the locality and the probable effect on traffic flow and safety;

CRITERIA:	Traffic impact assessment to Town's satisfaction.	Amount up to 20% of parking spaces to be reduced.	Other relevant considerations.
EFFECTS ON:			
Occupiers or users of the development.	Parking needs and effects of occupiers or users of the development.	High impact proposals will be ineligible for a parking reduction. Moderate impact proposals may be eligible for up to a 10% parking reduction. Low impact proposals may be eligible for up to the 20% parking reduction.	The larger the use or development the greater the parking requirement, hence the greater number of parking spaces in a reduction – and conversely – in terms of the degree and effect of any reduction. For major development, the traffic study must address the provision and form of parking on-site, on-street and nearby, including the effect on the supply of public parking. In activity areas such as the Town Centre or
Inhabitants of the locality.	Traffic and parking effects and patterns in relation to residents and users/visitors.		
Likely future development of the locality.	Indicated by zoning, development proposals and planned road or public domain changes.		
Nature of proposed use.	Traffic generation and parking demand depending on type, magnitude and days/hours of use.		
Likely volumes of goods or materials and numbers of people moving to or from the land.	Traffic and parking implications of deliveries, waste removal, service vehicles, staff and		

<p>Likelihood of traffic congestion on roads or in public places in the locality.</p>	<p>visitors. Traffic circulation and flow to access the development and parking areas, including peak periods.</p>		<p>beachfront, more intensive development will progressively increase traffic generation and parking needs.</p> <p>In the Local Centres and Residential Office localities the availability of business parking is limited and street parking including for nearby residences requires management.</p>

CONSULTATION

The scheme policy-making process includes public advertising and consideration of submissions.

PROCEDURE

The Scheme procedure for creating policies is initiated by a Council resolution, followed by advertising of the proposal inviting submissions. Advertising entails public notices in a local newspaper and a minimum 21-day period; while dissemination via the Town’s website and other means may also occur. After considering any submissions, Council resolves whether to adopt the policy and any modifications. Policies may also be amended from time-to-time, replaced or revoked as needs evolve.

CONCLUSION

The proposed Policy is required by the Scheme in order to operate particular provisions. Advertising and consideration of submissions will lead to any refinements for Council to finalise the Local Planning Policy instrument under the Scheme.

COMMITTEE COMMENT

Committee considered that the proposed Policy would benefit from some clarification in relation to the parking aspects covered and the Manager Development Services undertook to enhance the document for interpretation and application of the relevant Scheme provisions.

VOTING

Simple Majority

OFFICER & COMMITTEE RECOMMENDATION & COUNCIL RESOLUTION

Moved Cr Jeanes, seconded Cr Walsh

THAT Council note the proposed Local Planning Policy on Parking Matters and undertake public consultation in accordance with the Local Planning Policy provisions of the Scheme, for the consideration of any submissions and further reporting to Council.

Carried 9/0

TOWN OF COTTESLOE – LOCAL PLANNING SCHEME NO. 3

PROPOSED LOCAL PLANNING POLICY No. 1 – PARKING MATTERS

A policy made pursuant to Part 2 of Local Planning Scheme No. 3

1. INTRODUCTION

This Local Planning Policy deals with particular parking matters under Local Planning Scheme No. 3 (LPS3) to supplement the Scheme provisions.

The Scheme contains certain parking provisions that involve discretion and require a policy to become operative, which this Policy addresses. Other Scheme provisions regarding parking, including any discretion, operate directly as part of the Scheme.

2. OBJECTIVE

To create a policy framework within which Council may exercise discretion regarding the details of Scheme provisions on particular parking matters, and which:

- Strikes a balance between the requirement to provide parking and the ability to grant concessions.
- Considers the nature, magnitude and composition of development in relation to parking requirements, demand and utilisation.

3. BACKGROUND

LPS3 in Part 2 provides for local planning policy as a vehicle to manage discretion in aspects of development proposals, and states:

A Local Planning Policy is not part of the Scheme and does not bind the local government in respect of any application for planning approval but the local government is to have due regard to the provisions of the Policy and the objectives which the Policy is designed to achieve before making its determination.

4. REQUIREMENTS FOR POLICY

LPS3 in clause 5.8.3 specifies two parking discretions to be guided by policy:

Second paragraph – parking credit

In the Town Centre, Hotel, Foreshore Centre, Restricted Foreshore Centre and Development zones, when considering redevelopment or new development or change

of use applications, the local government may credit towards the amount of parking required to be provided as specified in Table 3, the parking deficiency that an existing tourism use may have when calculated against those provisions applicable to the subject site and its uses under this Scheme, having regard to the size and shape of the land, the number and availability of parking spaces in the vicinity, the likelihood of traffic congestion, and the opportunity to improve the appearance, amenity, function and accessibility of the locality provided that the decision to credit such a deficiency is made in the context of a Local Planning Policy adopted pursuant to Part 2 of this Scheme. For the purposes of this clause, tourism use means the “Hotel”, “Motel”, “Short-stay Accommodation”, “Serviced Apartment”, “Small Bar” and “Restaurant” uses.

This means that there must be a policy in place in order for Council to consider granting a parking credit. A credit is at Council’s discretion and the Policy is designed to assist ascertaining the appropriateness and extent of credit for proposals.

5.8.3(c) – cash in lieu

Lead-in paragraph:

In the Town Centre, Foreshore Centre, Restricted Foreshore Centre, Hotel, Development and Residential Office zones, the local government may approve development without the required number of parking spaces being provided on the land, subject to the applicant making arrangements satisfactory to the local government enabling the local government to provide public off-street parking in the vicinity, equivalent to the deficiency in parking spaces; and in this regard the local government may accept cash in lieu of parking spaces on the land, subject to the following — ...

Operative paragraph:

the cash in lieu payment shall only be accepted by the local government after a Local Planning Policy has been adopted under Part 2 of this Scheme which identifies the planned infrastructure including the land upon which it is planned to be located and the planned timing of expenditure of payments made under this clause;

This means that there must be a policy in place in order for Council to consider accepting cash in lieu, for allocation to planned parking provision over time. Cash in lieu is at Council’s discretion and the Policy is designed to assist ascertaining the appropriateness and extent of cash in lieu for proposals and how the funds are to be utilised.

Parking reductions

In addition to the above two matters, LPS3 in Schedule 13, Variations to site and development standards and requirements, provides as follows:

Parking (clause 5.8, Table 3 Vehicle Parking Requirements):

Subject to the following, the parking requirements set out in Table 3 may be varied, so as to reduce the number of parking spaces required in respect of a particular development by up to 20% of the number of parking spaces that would otherwise be required by the application of the provisions of Table 3, subject to the provision of a traffic impact assessment, to the satisfaction of the Council, addressing the matters referred to in clause 5.5.4(c).

In this respect clause 5.5.4(c) reads:

...if the local government is satisfied that the non-compliance will not have an adverse effect upon the occupiers or users of the development, the inhabitants of the locality or the likely future development of the locality.

The Policy provides guidance in applying this provision, which is at Council's discretion, in terms of the appropriateness and extent of parking reductions for proposals.

5. APPLICATION OF POLICY

This Policy responds to the details of the three parking matters identified above where guidance is required in the exercise of discretion under the Scheme.

It applies only to the zones or aspects described therein and at the discretion of Council.

Council may apply the policy in assessing planning proposals, to consider them against the intent and provisions of the Policy in ensure that the Scheme requirements are appropriately determined.

6. POLICY PROVISIONS

Parking credit (clause 5.8.3):

- The concept of a parking credit is that if an existing approved tourism use/development has managed with its present parking supply, the deficiency between that amount of parking and what it would now have to provide under LPS3 may be credited towards the parking that a proposal for the site is required to provide under LPS3.
- Although the provision indicates crediting the full deficiency, the assessment criteria connote that a partial credit may be determined.

- This credit capacity applies to the Town Centre, Hotel, Foreshore Centre, Restricted Foreshore Centre and Development zones only and to the nominated tourism uses only.
- The provision may apply to successive proposals for a site during the life of LPS3.
- The Scheme specifies parameters for Council to exercise discretion to grant a parking credit, and the following table sets out how Council will operate this provision having regard to related factors as indicated.
- For a proposal seeking a parking credit, the applicant shall submit for Council consideration a traffic and parking statement addressing the relevant criteria.
- The percentage in the table refers to the maximum percentage of the total parking deficiency that Council may grant as a credit – it does *not* refer to the percentage of the total parking requirement that may be credited.

ZONES:	Town Centre	Hotel	Foreshore Centre	Restricted Foreshore Centre	Development
CRITERIA:					
Redevelopment or new development.	Up to 100% credit depending on nature of redevelopment, as ample public parking is available, but intensive uses generate demand.	Up to 50% credit depending on nature of redevelopment, as the site is limited and intensive uses generate demand, while ample public parking is available.	Up to 50% credit depending on nature of redevelopment, as ample public parking is available, but intensive uses generate demand.	Up to 75% credit depending on nature of redevelopment, taking into account that parking is limited.	Up to 75% credit depending on nature of redevelopment, where parking can be accommodated by structure planning and new development.
Change of use.	Up to 100% credit depending on nature of change of use.	Up to 50% credit depending on nature of change of use.	Up to 50% credit depending on nature of change of use.	Up to 75% credit depending on nature of change of use.	Up to 50% credit depending on nature of change of use.
Parking deficiency of existing tourism use.	Determined from Town's records and applicant's evidence.				
Size and shape of the land.	Mainly smaller, narrower-	Single large lot, with heritage	Range of smaller to	Consistent with residential lots	OBH street block

	frontage lots, with some larger lots.	hotel and rear alfresco addition.	larger lots, mostly corner sites; with numerous strata titles.	in each street.	comprises multiple lots and mixed ownership. Other Development Zones comprise very large, mainly single parcels.
Number and availability of parking spaces in vicinity.	Good supply of public parking.			Good supply of public parking, but residential street parking restrictions.	OBH street block is near good supply of public parking. Other Development Zones are near varied limited supplies, with some potential for increases.
Likelihood of traffic congestion.	High traffic locality.				OBH street block and Railway lands are in high traffic localities. Former depot site will be residential traffic only. Major development on Gibney Street sites would generate considerable traffic.
Opportunity to improve appearance, amenity, function and accessibility of locality.	Depends upon nature of proposal, design of any development and Scheme requirements.				

Note: For the purposes of this table, tourism use means the "Hotel", "Motel", "Short-stay Accommodation", "Serviced Apartment", "Small Bar" and "Restaurant" uses.

Cash in lieu (clause 5.8.3(c):

- Cash in lieu of on-site parking for uses or developments is a conventional town planning measure, as provided for in LPS3.
- This is not intended to replace the primary requirement for development to provide parking on site, but is a mechanism to facilitate desirable development if that is constrained.
- Cash in lieu applies to the Town Centre, Foreshore Centre, Restricted Foreshore Centre, Hotel, Development and Residential Office zones only.
- The Scheme specifies parameters for Council to exercise discretion to grant cash in lieu, and the following table sets out how Council will operate this provision having regard to related factors as indicated.
- The feasibility of each parameter varies according to the nature of the proposed development, the circumstances of the zone and locality, land availability and related factors.
- The percentage in the table refers to the maximum percentage of the total parking requirement that Council may grant as cash in lieu.

ZONES:	Town Centre	Foreshore Centre	Restricted Foreshore Centre	Hotel	Development	Residential Office
CRITERIA:						
Public off-street parking in vicinity.	Good supply of public parking.	Good supply of public parking.	Good supply of public parking.	Good supply of public parking.	Good supply of public parking for Development Zone 'A' (OBH site).	Good supply of public parking.
Deficiency in parking spaces.	Maximum 25% as determined by Council.	Maximum 25% as determined by Council.	Maximum 20% as determined by Council.	Maximum 20% as determined by Council.	Maximum 25% as determined by Council.	Maximum 20% as determined by Council.
Planned infrastructure including land. Land in lieu of cash in lieu, identified for public parking.	Council will consider land capable of parking development.	Council will consider land capable of parking development, which does not front Marine Parade.	Council will consider land capable of parking development, which does not front Marine Parade,	Not applicable to Cottesloe Beach Hotel site.	Council will consider land capable of parking development, which is well-located and, accessible,	Council will consider land capable of parking development.

			subject to residential amenity.		subject to residential amenity.	
--	--	--	---------------------------------	--	---------------------------------	--

Note: The maximum % of parking bays Council may permit as cash in lieu relates to:

- The parking requirement generated by the nature of the use and magnitude of the development.
- The demands for parking from the development and in the locality.
- The physical scale and form of development in relation to the site and surrounds.
- The affects on the amenity of the development and surrounds.

- For the **Town Centre** zone, the sites in the following table are the main opportunities to provide additional parking in substantial quantities.
- Each can be examined in detail in terms of land area, bay yield, levels of parking, type of development if combined with parking, indicative designs, estimated cost, approval/construction processes, funding and timeframe.
- Previous studies can be drawn-upon as a basis for formulating firmer concept proposals for further consideration.

Site	Ownership	Actions
Station Street Car Park west, corner Railway Street.	Council.	Formulate a three-storey mixed-use development proposal with at least 50 on-site parking bays. Consider options for funding and development.
Station Street Car Park east, near Stirling Highway (former sump site).	Council.	Formulate designs for either a decked car park or a three-storey mixed-use development proposal with surface and/or decked public parking. Subject to relocation of drainage infrastructure under street.
Private property redevelopments such as Station Street both sides and south of Jarrad Street.	Various.	Liaise with landowners and developers to facilitate and Co-ordinate the provision of on-site and off-site parking.
Public Transport Authority (PTA) parking areas.	Crown railway reserve.	Renegotiate the lease of the PTA parking area along Railway Street to be at no or low cost. Liaise with the PTA to formalise the linear parking west of the railway line behind the Western Power sub-station, for workers, to be developed, maintained and managed by the Town.

<p>Government land south-east corner of Curtin Avenue and Jarrad Street west of railway line.</p>	<p>Unvested Crown reserve.</p>	<p>Seek a lease over the unvested Crown reserve on the south-east corner of Curtin Avenue and Jarrad Street for surface parking, for workers.</p> <p>Prepare a design with attention to vehicular ingress and egress, pedestrian routes internally and externally, and landscaping and signage.</p>
---	--------------------------------	---

- For the **Residential Office** zone between Forrest and Vera Streets north of the Town Centre, Council may consider cash in lieu being obtained and directed to the following provision of parking:
 - Station Street car park opportunities as outlined above.
 - Extension northward of the car park on the Railway Street road reserve alongside the railway.

- For the **Foreshore Centre, Restricted Foreshore Centre, Hotel and Development 'A'** (OBH site) zones comprising the beachfront locality, Council may consider cash in lieu being obtained and directed to the following provision of parking:
 - Improvement and rationalisation of Car Park No. 1.
 - Improvement, rationalisation and possible decking of Car Park No. 2.
 - Parking on the railway land with a shuttle bus service to the beachfront.

- For **Development Zone 'B'** (former depot site) approved to be subdivided for residential development, cash in lieu is not applicable.

- For **Development Zone 'C'** (Wearne Hostel site), **Development Zone 'D'** (WAIDE site) and **Development Zone 'E'** (railway lands), cash in lieu may be applicable subsequent to future structure planning, subdivision and development proposals.

Parking reductions (Schedule 13):

- Consideration of granting a parking reduction is informed by clause 9.2(c) of the Scheme regarding application requirements, which provides for:

any specialist studies that the local government may require the applicant to undertake in support of the application, such as traffic, heritage, environmental, engineering or urban design studies;

- As well as by clause 10.2.2 regarding matters to be had regard to, which includes:

whether the proposed means of access to and egress from the site are adequate and whether adequate provision has been made for the loading, unloading, manoeuvring and parking of vehicles; and

the amount of traffic likely to be generated by the proposal, particularly in relation to the capacity of the road system in the locality and the probable effect on traffic flow and safety;

- The Scheme specifies parameters for Council to exercise discretion to grant parking reductions, and the following table sets out how Council will operate this provision having regard to related factors as indicated.
- For a proposal seeking a parking reduction, the applicant shall submit for Council consideration a traffic and parking statement addressing the relevant criteria.
- The percentage in the table refers to the maximum percentage of the total parking requirement that Council may grant as a reduction.

CRITERIA:	Traffic impact assessment to Town's satisfaction.	Amount up to 20% of parking spaces to be reduced.	Other relevant considerations.
EFFECTS ON:			
Occupiers or users of the development.	Parking needs and effects of occupiers or users of the development.	High impact proposals will be ineligible for a parking reduction. Moderate impact proposals may be eligible for up to a 10% parking reduction.	The larger the use or development the greater the parking requirement, hence the greater number of parking spaces in a reduction – and conversely – in terms of the degree and effect of any reduction. For major development, the traffic study must address the provision and form of parking on-site, on-street and nearby, including the effect on the supply of public parking. In activity areas such as the Town Centre or beachfront, more
Inhabitants of the locality.	Traffic and parking effects and patterns in relation to residents and users/visitors.	Low impact proposals may be eligible for up to the 20% parking reduction.	
Likely future development of the locality.	Indicated by zoning, development proposals and planned road or public domain changes.		
Nature of proposed use.	Traffic generation and parking demand depending on type, magnitude and days/hours of use.		
Likely volumes of goods or materials and numbers of	Traffic and parking implications of deliveries, waste		

<p>people moving to or from the land.</p>	<p>removal, service vehicles, staff and visitors.</p>		<p>intensive development will progressively increase traffic generation and parking needs.</p> <p>In the Local Centres and Residential Office localities the availability of business parking is limited and street parking including for nearby residences requires management.</p>
<p>Likelihood of traffic congestion on roads or in public places in the locality.</p>	<p>Traffic circulation and flow to access the development and parking areas, including peak periods.</p>		

Resolution date: 27 October 2014
