Mr Carl Askew
CEO
Town of Cottesloe
109 Broome Street
COTTESLOE WA 6011

Dear Mr Askew

Re: Request to seal laneway that runs behind 6 & 8 Sydney St, 7, 9, 11, 11a & 11b Mac Arthur St in South Cottesloe

We would like to request that the lane way that runs behind our house is sealed. This short laneway of approximately 20 metres runs at right angles from the laneway from between Sydney Street and MacArthur St (this part of the laneway was sealed in the last 3 years). The laneway ends at a garage door at the back of 5 Mac Arthur Street and is access to this garage.

The reasons we would like this laneway sealed are:

- We have no side access from the front of our house to the back. Our only access to the back of our property is through a gate off the lane way or through our house. This becomes an issue when moving garden supplies or furniture, etc
- We use this laneway constantly to move in and out of the back of our property.
- The sand is piling up and falls through our gate and into our property.
- During the seasons:
 - Summer, the sand is loose and dry and blows around
 - Autumn and winter, the weeds grow high and become wet and soggy
 - Spring, the winter weeds begin to seed and die causing problems for our dog. This may even be a fire hazard.

Could you please inform us of the process for getting this job done? You can contact either John or myself on the following numbers; John, _____) or Christina, _____ email, _____

Thank you for considering this request.

Kind regards

John and Christina Cluer
